

## TRAINING RESOURCES ARE COMING SOON!

Coming soon to Bowfire Rise will be our **featured training resources**. So many informal training programs and formal curricula can be taken before, alongside, or after a certificate or degree program. Bowfire Rise Training, which involves fewer than 6 months for Parts 1 and 2, is an excellent place to launch, but you will then want to consider how to develop the spiritual foundation within you. Developing spiritual and artistic gifts and understandings will open God's doors for your life and career. If you are in a different stage of life, there are still some excellent and transformative training opportunities.

Researching the benefits and drawbacks of many of these training programs can be confusing, as they vary so greatly in time required, focus, cost, location concerns, and, most importantly, the quality of training relevant to your specific purpose and destiny. You may consider whether the program offers interactive experiences, spiritual relevance, practicums in spiritual principles, and mentorship. As we develop featured programs here, it will be a starting place for your search.

Your input and feedback as I develop our training resources are vital. Therefore, we will create a **comment section here on our resources page**, and the comments of our cohort students in the Bowfire Training program will be greatly appreciated.

Expect our first features early this Spring, giving you time to get on board for the summer or next fall. Contact me with any questions or suggestions @ **cherebowfire22@gmail.com**.
